

CAREER OBJECTIVE

Seeking a challenging position in reputed organization where I can learn something new skills, expand my knowledge, and I can make best of my potential and build valuable skills set.

SKILLS

Embedded & Hardware: Arduino, Raspberry Pi, ESP32, UART/I2C/SPI, Arduino IDE, radio modules, broad sensor integration.

Software & Development: Python, C++, C, MySQL, MQTT, Blynk IoT, MATLAB, Canva.

EDUCATION

- 2023 - 2026 BE(EXTC)- Pursuing | CGPI – 7.8
Datta Meghe college of Engineering, New Mumbai
- 2020 -2023 Diploma(EXTC) | Percentage - 75%
Alamuri Ratanmala Institute of Engineering and Technology
- 2019 – 2020 SSC | Percentage – 87.80%
Rayate Vibhag High School Rayate

WORK EXPERIENCE

- Internship in Computer Software (“E-Vehicle Assembly & Troubleshooting -EVA&T”) In PRO Engineers Learning And Research Centre Navi Mumbai.
- Completed Industrial Training (Solar PV System Familiarisation) Under TATA POWER- held at TPSDI, Shahad.

PROJECT

- 1. Voice Controlled Pick & Place Robot (Raspberry Pi)**
Developed a robotic arm controlled using voice commands for pick-and-place operations. Integrated speech recognition with motor control for automation.
Used Raspberry Pi, servo motors, and Python for implementation.
Achieved accurate object handling with real-time response.
- 2. Home automation and Security EcoSystem Using Arduino**
Designed a smart home system to control appliances and enhance security.
Implemented sensors (motion, temperature) and relay modules for automation.
Enabled remote monitoring and control via mobile interface.
Improved energy efficiency and safety.
- 3. Elderly Person Health Care & Accident Detection System Using IoT**
Developed an IoT-based system to monitor vital parameters and detect falls.
Integrated sensors like MAX30102 (heart rate), DHT11, and MPU6050.
Implemented real-time alerts using Blynk platform.
Improved safety and response time for elderly care.
- 4. IoT-Based Fire Alerting System**
Built a real-time fire detection and alert system for emergency response.
Integrated smoke/gas sensors with IoT platform for instant notifications
Used ESP8266 for wireless communication.
Ensured quick alert delivery to minimize damage and risk..

Achievements

- Secured 1st Place (Winner) in the National Level Project Competition “ELECTROWIZ” organized by IETE, DMCE Airoli in 2024.
- Secured 1st Place (Winner) in the National Level Project Competition “ELECTROWIZ” organized by IETE, DMCE Airoli in 2025.

STRENGTH

- Team Work.
- Positive Attitude.
- Easily mixed with requirement.
- Correct mistakes as early as possible and learn something new from them.

PERSONAL DETAILS

Name – Roshan Ramesh Gode
Address – Near Birla College, Kalyan(W)
Date of Birth – 12th May 2004
Gender - Male
Marital Status - Unmarried

DECLARATION

I hereby declare that the information contained herein is true and correct to the best of my knowledge and belief.
